### EDUCATION

**M.S. Cyber Security & Operations Leadership**  
*University of San Diego*  
January 2019

**B.S. Business Administration**  
Mgmt. Information Systems  
*San Diego State University*  
May 2016

### CERTIFICATIONS

**Google Data Analytics**  
Professional Certificate  
Coursera • May 2024

**Certified ScrumMaster**  
ScrumAlliance • May 2023

### CORE COMPETENCIES

- ▶ IT Infrastructure & Network Mgmt
- ▶ Cybersecurity & Threat Mitigation
- ▶ Data Privacy: FERPA, COPPA/CIPA
- ▶ K-12 SIS Administration
- ▶ Hardware/Software Standardization
- ▶ IT Ticketing & Service Desk Ops
- ▶ Staff Supervision & Development
- ▶ Budget & Project Management
- ▶ Cross-Dept. IT Coordination
- ▶ System Integrations & Testing
- ▶ Data Engineering & Automation
- ▶ Stakeholder Presentations

### TECHNOLOGY

- ▶ Aeries, PowerSchool, Synergy
- ▶ CALPADS, SEIS, QRIS
- ▶ Microsoft 365, SharePoint

### PROFESSIONAL PROFILE

Strategic IT and data systems leader with nearly a decade of experience across K-12 education and state government. Proven record managing complex information systems, automating data operations with Python and the Microsoft Power Platform, and ensuring cybersecurity and student data privacy compliance (FERPA, COPPA/CIPA). Skilled at directing cross-departmental technology initiatives, supervising and training technical staff, and advising administrators and stakeholders on emerging technologies. Adept at aligning district-wide IT operations, hardware and software standardization, and system availability with organizational goals and service level agreements.

### PROFESSIONAL EXPERIENCE

**San Diego County Office of Education** • San Diego, CA *Dec 2021 – Present*  
**Senior Program Specialist, Early Education Data Reporting**

- ▶ Direct full technology project lifecycles for county-wide education data systems, encompassing database design, system architecture, user needs analysis, and compliance requirements.
- ▶ Engineer Python-based ETL pipelines and desktop reporting applications (pandas, openpyxl) that automate quarterly program reporting, staff dashboards, and data quality assurance, eliminating an estimated 120 hours of manual processing each quarter.
- ▶ Build and deploy Microsoft Power Platform solutions, including Power Automate routing and distribution flows, Power Apps intake forms, and SharePoint and Power BI integrations that streamline data collection across 360+ partner agencies.
- ▶ Develop data migration tools and orchestrate system integrations across multiple platforms, ensuring seamless connectivity and compliance with student data privacy laws (COPPA/CIPA).
- ▶ Develop and deliver technical training to 500+ staff annually on QRIS, SEIS, CALPADS, and other state and federal reporting systems, enhancing productivity and technology adoption.
- ▶ Serve as key technology advisor to programs, school districts, and stakeholders, providing guidance on system integrations, reporting requirements, and cross-departmental technology initiatives.
- ▶ Ensure information systems meet FERPA, data confidentiality, audit, and records retention requirements, maintaining historical archives and electronic compliance records (ERATE, student education records).
- ▶ Manage technology operations against contract and service level requirements, leading system testing, scheduling, stakeholder communication, and deliverable production within budget.
- ▶ Supervise and mentor support staff, evaluating performance and building team capability, while analyzing technology needs and recommending system and process improvements.

**California Department of Justice** • San Diego, CA *Jun 2020 – Dec 2021*  
**Information Technology Specialist I (Digital Forensics Specialist)**

- ▶ Managed maintenance, security, and operational integrity of the digital forensics lab, proactively monitoring and mitigating security threats to protect sensitive systems and data.
- ▶ Collaborated with agents, auditors, and legal teams on digital examinations, applying advanced technical analysis to support investigations and ensure data integrity.
- ▶ Participated in advisory groups and interagency collaborations, contributing expertise to technology-driven investigative processes.
- ▶ Conducted digital forensic examinations including data recovery and analysis for legal proceedings, maintaining rigorous chain-of-custody standards.
- ▶ Trained staff on forensic tools, security best practices, and technical procedures, improving team capability and adherence to established protocols.

**San Diego County Office of Education** • San Diego, CA *Aug 2017 – Jun 2020*  
**Systems Technician II**

- ▶ Power BI, Tableau
- ▶ Power Apps, Power Automate
- ▶ Python (pandas, ETL pipelines)
- ▶ Digital Forensics Tools
- ▶ VBA / Macro Automation

- ▶ Developed and automated reporting tools using macros and VBA to streamline district data operations and improve technology service efficiency.
- ▶ Trained and assisted personnel in using district student information systems (Aeries, PowerSchool, Synergy), supporting technology adoption across departments.
- ▶ Performed security configuration tasks including user setup, access controls, workflow management, and system preferences to maintain secure, compliant IT environments.
- ▶ Collaborated with programming staff and clients to identify system enhancements, define requirements, and resolve user issues.
- ▶ Assisted in creating procedures to verify system output accuracy and organized records for contracted services, timelines, and troubleshooting.

#### **General Atomics Aeronautical Systems • San Diego, CA** **Systems Specialist II**

*Jul 2016 – Aug 2017*

- ▶ Gathered, tracked, and verified data for accuracy across business information processing systems, identifying errors and recommending corrective actions.
- ▶ Coordinated with cross-functional teams to determine system requirements, track project progress, and maintain confidential records.

#### **PUBLICATIONS & PRESENTATIONS**

- ▶ Acknowledged contributor (data partnership): Aurora, M., et al. (2026). Leading with confidence: QRIS participation and site leaders' confidence, well-being, and quality improvement. *Early Childhood Research Quarterly*, 77, 38-51.
- ▶ Co-author: Building the Capacity of Home-Based Childcare Providers through a Local Quality Rating Improvement System (QRIS). Poster presented at the National Research Conference on Early Childhood (NRCEC), 2024.

#### **COMMITTEES & LEADERSHIP**

- ▶ Member, SDCOE Strategic Planning Committee: served on the cross-divisional employee committee that co-created the county office's 2025-30 strategic plan (2024-2025).
- ▶ Member, SDCOE Human Resources committee reviewing and updating performance evaluation processes for classified and certificated management.
